

# Mosab Hassan Elhussini Mahmoud

Cybersecurity Student — Incident Response Track

Dakahlia, Egypt

mosabhassan025@gmail.com — +20 109 007 3517

## Profile

---

Final-year Cybersecurity student with strong hands-on experience in defensive security, incident response, and SOC fundamentals. Actively practicing blue team techniques through labs, internships, and structured training programs. Seeking an internship or junior role in cybersecurity operations or incident response.

## Education

---

### Bachelor of Cybersecurity

Fourth Year — Grade: **Very Good**

Relevant Coursework: Incident Response, Network Security, Digital Forensics, Secure Systems

## Certifications & Training

---

- **Cisco CyberOps Associate** — Cisco Networking Academy Hands-on practice using **Kali Linux** for security operations and analysis
- **Cybersecurity Training Program** — NTI (National Telecommunication Institute) Practical labs on Linux-based security tools and blue team fundamentals
- **Incident Response Internship** — DEPI Program

## Hands-On Experience

---

### Incident Response Intern — DEPI

- Participated in incident detection, analysis, containment, and recovery activities
- Performed alert triage and basic log analysis
- Applied the Incident Response Lifecycle in simulated environments

### Blue Team Practice — TryHackMe

- Completed defensive security learning paths
- Practiced SOC monitoring, threat detection, and investigation techniques
- Analyzed attack scenarios and proposed mitigation strategies

## Technical Skills

---

**Security Domains:** Incident Response, SOC Operations, IDS/IPS, Log Analysis, Threat Detection

**Operating Systems:** Linux (Kali Linux), Windows

**Tools & Platforms:** Wireshark, Metasploit, Kali Linux Tools, Virtual Labs, TryHackMe

**Programming Languages:** Python, C#, C++, Java

## Soft Skills

---

Analytical Thinking

Incident Prioritization

Attention to Detail

Problem Solving

## **Languages**

---

Arabic — Native

English — Fluent
